INNOVATING
PERFECTION

We strongly believe that innovation is the leading way for constantly evolve the idea of perfection. That's why we are always at the forefront in adopting latest generation technologies and promoting continuous R&D activities to create surfaces that embody the highest levels of aesthetic refinement and technical performance. Faithful to the mission to improve people's quality of life by focusing on the perfect balance between beauty and functionality.

OUR PILLARS

The visual identity expands and completes with a highly flexible and modular design system that draws on further iconographic elements linked to the historical and cultural uniqueness of the city of Padua to express the main values of the brand.

Inspired by stone

There is no denying the grandeur of stone. Be inspired by our collection of stone designs, exclusively created to bring elegance and beauty to your home.

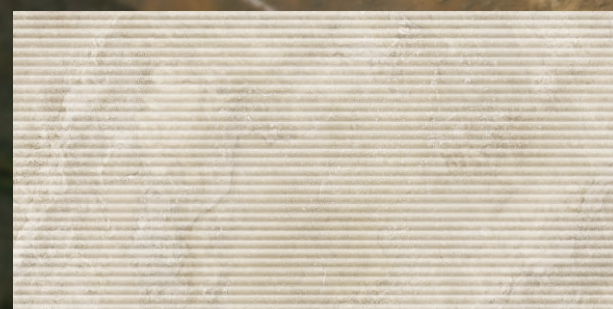

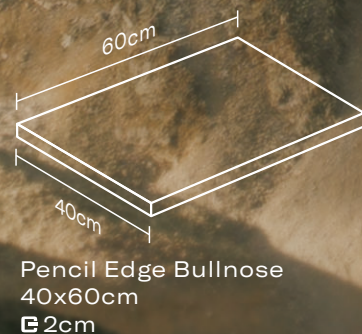

NORCIA

Created and produced following the beauty of the natural travertine, with both types of veining, which is obtained by cutting the block of stone longitudinally or transversally (vein cut and cross cut). Graphics and veins look extremely natural with the use of the In&out Matt Technology.

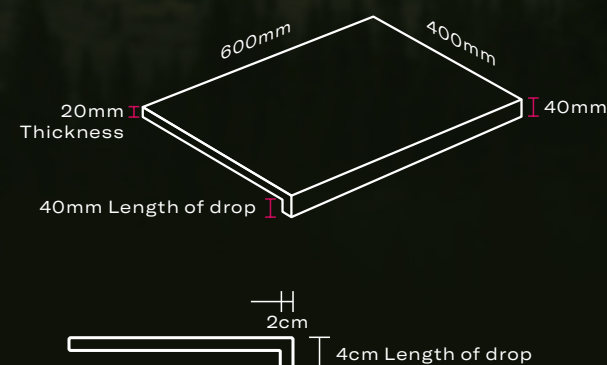

Available in the 5 classic colours of the Travertine: Snow, Light, Beige, Silver, Grey

FRENCH PATTERN

French Pattern (FP) is a Modular interlocking pattern that is reminiscent of a stone floor from the historic European palaces, a French pattern floor looks very elegant and impressive. The Modular nature of French Pattern makes it ideal for large indoor and outdoor spaces, where the intersection of the lines and the tile sets create the illusion of an even larger space. Not allowing your eyes to be caught on the straight parallel lines and being drawn away from the feature of the stone.

CRAZY PAVE

With origins in Ancient Rome, Crazy Paving stone flooring offers an organic, fluid surface for use in internal and external spaces. The historical flooring method features stone pieces of irregular shapes, textures and colours, laid randomly to ensure a deeply unique aesthetic in every application. It's perfect for the outdoors, but it adds organic texture and a powerful visual impact when used indoors as well.
